### Message from the Guest Editors

This Special Issue addresses the rapid development of artificial intelligence (AI) in the field of musculoskeletal (MSK) imaging and aims to gather manuscripts covering AI applications for MSK imaging. The issue will include original and review articles on traditional machine learning as well as deep learning applications related to MSK disorders on any relevant imaging modality (MRI, US, CT, X-rays). Contributions considered for this Special Issue may also be related to the field of radiomics as well as the integration of radiomics with other types of biological omics (radiogenomics, radiotranscriptomics etc.) provided that they are applied to MSK disease.

Deadline for manuscript submissions:

**closed (30 June 2023)**

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
