Deadline for manuscript
submissions:

closed (30 June 2021)

Message from the Guest Editor

Cardiovascular diseases are still increasingly prevalent, and often represent a major challenge for the practitioner facing real-life patients. Despite the recent and important progress made in better understanding and managing heart diseases, we are far from reaching definitive answers for everyday clinical problems. The scope, the principal idea behind the Special Issue, is to provide relevant, new information concerning the diagnosis and management of cardiovascular diseases, useful for daily practice and based on the most recent, available data. In this regard, the Issue seeks to collate articles which give a comprehensive, up-to-date presentation of clinical aspects related to frequently encountered or emerging cardiovascular pathologies, with an impact on improving everyday cardiac care.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
