Clinical Prognostic and Predictive Biomarkers

Guest Editors:

Prof. Dr. Yuli Huang
Department of Cardiology, Shunde Hospital, Southern Medical University, Foshan 528300, China

Prof. Dr. Yong Yuan
Department of Cardiology, Zhongshan City People's Hospital, Sun Yat-sen University, Zhongshan, China

Prof. Dr. Peisong Chen
Department of Laboratory Medicine, The First Affiliated Hospital, Sun Yat-sen University, Guangzhou 510080, China

Deadline for manuscript submissions:
closed (30 June 2023)

Message from the Guest Editors

With the great advances in proteomics, metabolomics, functional genomics, and bioinformatics, more and more novel biomarkers are discovering. They play an important role in identifying high-risk individuals, diagnosing disease conditions, and predicting response to therapy and prognosis in multiple fields of clinical medicine, including cardiovascular disease, diabetes, and cancer. Furthermore, they allow us to better understand the mechanisms and molecular pathways of disease development and progression. This deeper knowledge of biomarkers offers the opportunity to develop novel precision and personalized therapies.

In this Special Issue, we aim to provide a platform for communication on the progress of biomarkers identification and utilization in healthcare. The welcomed topics include but are not limited to biomarkers in cardiovascular disease, diabetes, acute and chronic venous disease, and cancer.

Special Issue

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
