Message from the Guest Editors

Dear Colleagues,

Ophthalmic pathology has a long history and rich heritage in the field of ophthalmology, dating back to when ophthalmology was first established as a medical specialty in the 17th century.

Advances in molecular pathology, immunohistochemistry, and digital imaging are paving the way for exciting new developments in ophthalmic pathology.

This Special Issue aims to present original research and review articles that summarize the state-of-the-art, that attempt to answer some open questions, and that cover current aspects of some diagnostic concepts in eye pathology.

On behalf of the *Diagnostics* editorial office, I invite you to contribute your review articles and research papers concerning "current diagnostic concepts in eye pathology" for peer review and possible publication.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
