Message from the Guest Editor

Dear Colleagues,

Perinatal medicine is a relatively new specialty. Antenatal fetal assessment, the management of labor, including electronic monitoring in normal women and asphyxial brain damage, etc., represent major topics. This Special Issue is dedicated to advancing the diagnosis and management of perinatal medicine. We welcome a diverse range of contributions, including reviews, original research articles, case reports, interesting images, and guidelines, all aiming to advance our understanding of perinatal medicine.
