Message from the Guest Editor

Dear Colleagues,

Thyroid Diseases are the most frequent endocrine diseases and thyroid cancer is the most common endocrine malignancy. However, their biomarkers remain unclear. Recent developments in molecular biological techniques have led to a better understanding of the pathogenesis and diagnosis of thyroid diseases. In order to identify individuals who are susceptible to thyroid diseases for earlier diagnosis and appropriate follow-up, our special issue is aimed to investigate biomarkers of thyroid diseases.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
