Message from the Guest Editors

Dear Colleagues,

Gastric cancer has ranked as the third leading cause of cancer mortality worldwide, although recent innovation of surgery and chemotherapy, including targeted therapies and immune checkpoint inhibitors, has changed clinical practice. Therefore, early detection and improvement of cancer management has been required. In this Special Issue, we will discuss the recent discovery of molecular alteration to detect cancer development and progression, advances in endoscopic diagnosis and surgical treatment, and new findings of chemotherapy, targeted therapy and immunotherapy for gastric cancer. We intend for this Special Issue to be informative for all researchers of gastric cancer.

Dr. Takayuki Ando

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
