Deadline for manuscript
submissions:

30 April 2025

Message from the Guest Editor

This Special Issue showcases the latest advancements in utilizing medical imaging techniques, particularly high-resolution and wide-field optical coherence tomography (OCT) and OCT angiography, to enhance the diagnosis and management of macular edema. The Special Issue explores how these imaging modalities facilitate the early detection of edema, enabling targeted and personalized treatment strategies. Additionally, it discusses emerging treatment options and research on biomarkers, highlighting the importance of a multidisciplinary approach in addressing this significant cause of visual impairment.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
