Message from the Guest Editors

Dear Colleagues,

Parkinson's disease and other movement disorders are commonly seen conditions in our neurology clinics. Keeping up with the advances in the diagnosis and management of these different conditions will provide clinicians with new knowledge for early diagnosis and prompt treatment. This will ultimately produce opportunities for better patient care.

This field is very dynamic, and we need to continue learning and adapting to these changes. All of these new and emerging diagnostic and therapeutic approaches are for the benefit of our patients. This Special Issue aims to provide updates on the diagnosis and management of Parkinson's disease and other movement disorders.

Dr. Roland Dominic G. Jamora

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
