Artificial Intelligence in Medical Diagnosis and Prognosis

Collection Editor:

Prof. Dr. Tim Duong

Department of Radiology, Montefiore Medical Center, Albert Einstein College of Medicine, Bronx, New York, NY 10461, USA

Message from the Collection Editor

Dear Colleagues,

This is a collection of open access high-quality papers published by Editorial Board Members, or those who were invited by the Editorial Office. This Topical Collection aims to publish high-quality articles within the field of artificial intelligence in medical diagnosis and prognosis. The papers should be long research papers (or review papers) with full and detailed summaries of the author's own work performed so far. Please note that the selected full papers will still be subjected to thorough and rigorous peer review. All papers will be published on an ongoing basis.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
