Message from the Guest Editor

Dear Colleagues,

Many orthopedic disorders in children and adults are located in the spine or lower extremities. There is often a connection between these disorders, for instance, a leg length discrepancy and the spine. This issue addresses all aspects of the spine and lower extremities with respect to the orthopedic fields. This includes the spine, the hip, the pelvis and the lower extremity. Reports on diagnosis, therapy and analysis are welcomed as well as clinical reports on conservative or surgical treatment. Therefore, we invite researchers to contribute to this Special Issue with original research articles, review articles and meta-analyses focusing on the topics mentioned above.

Prof. Dr. Klemens Trieb

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
