Deadline for manuscript submissions:

31 March 2025

Message from the Guest Editor

Pregnant women with chronic conditions (e.g., nervous system, endocrine, genetic, infectious, immune, kidney, liver disease, hypertension, diabetes, mental and blood disorders), pregnancies at risk for pregnancy-related complications (e.g., preeclampsia, obesity, gestational diabetes, preterm labor, placenta previa and multiple pregnancies) and pregnancies with the fetus at risk (e.g., maternal diseases, genetic and chromosomal conditions, and growth restriction) are all encompassed by maternal–fetal medicine. The Special Issue aims to publish high-quality scientific articles in the perinatal health field to reduce maternal and infant mortality rates from pregnancy-related complications. These articles will focus on improving the diagnosis and management of obstetric, medical, surgical and fetal pregnancy complications. We invite original research articles, case studies, case reports and reviews on various maternal–fetal and obstetrical difficulties, from early pregnancy and placentation to prenatal diagnostics, fetal therapy, and maternal–fetal and obstetrical complications

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
