Message from the Guest Editor

Diagnostics (ISSN 2075-4418) is an international scholarly open access journal on medical diagnostics. It publishes original research articles, reviews, short communications, case reports, and interesting images. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible. Full experimental and/or methodological details must be provided for research articles. *Diagnostics* is going to create a Special Issue on musculoskeletal imaging. This Special Issue will be focused on musculoskeletal imaging anatomy, new imaging techniques of musculoskeletal pathology, what each imaging modality can add to musculoskeletal diagnosis, and which modality is best for evaluation of a specific musculoskeletal pathology.
