Advances in the Prevention, Diagnosis, and Management of Liver Diseases

Message from the Guest Editors

There are many kinds of liver diseases caused by drugs, poisons, alcohol, parasites, fungi, viruses, metabolic or inherited, and also primary liver tumors and metastatic liver cancers. We are pleased to welcome you to introduce your advanced studies or new devices or drugs in the prevention, diagnosis, and management of liver parenchyma diseases, bile duct injuries, intrahepatic space-occupying lesions, and tissue or serum biomarkers. This Special Issue welcomes your contributions covering the current aspects of prevention, diagnosis, and management of liver diseases. Submissions may include articles of current original research, experimental methodology, artificial intelligence, the introduction of new devices or drugs, and review articles summarizing the current status of biomarkers or images or pathologic diagnosis and management of liver disease. I look forward to accepting your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
