

## Special Issue

# Maternal–Fetal and Neonatal Diagnostics

### Message from the Guest Editor

The scientific world is always on the move, and diagnostics to improve maternal–fetal and neonatal outcomes is a topic that has attracted much attention. The proper clinical assessment of instruments determines the timing of maternal–fetal and subsequent neonatal investigations. Twin pregnancies complicated by twin–twin transfusion have benefited from early ultrasound diagnosis and laser therapy. Fetal echocardiography has revolutionized maternal–fetal and neonatal outcomes. The comprehensive use of ultrasound in the NICU has enabled the diagnosis and treatment of severe neonatal pathologies. Early diagnosis with increasingly specific and sensitive biomarkers for infectious diseases in the neonatal intensive care unit may also have a positive impact on long-term outcomes.

This Special Issue aims to summarize new developments in "Maternal–Fetal and Neonatal Diagnostics". I look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
