Recent Advances in Malaria Diagnosis

Message from the Guest Editors

On behalf of *Diagnostics*, we cordially invite you to submit a manuscript to our Special Issue entitled “Recent Advances in Malaria Diagnosis”. Malaria is a major public health concern which continues to claim the lives of more than 435,000 people each year. The challenges with antimalarial drug resistance and detection of low parasitaemia form an immediate barrier to achieving the United Nations Sustainable Development Goals of ending malaria epidemics by the fast-approaching deadline of 2030. With the increasing human mobility (e.g., travel, migration), the threat of resurgence in traditionally non-endemic countries (e.g., United States, Europe) remains high. This Special Issue discusses the recent advances of emerging technologies/methodologies in malaria diagnostics. Submissions can be original research articles, reviews, or commentaries/perspectives.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
