2. U-M Center for Disability Health and Wellness, University of Michigan, Ann Arbor, MI 48108, USA

Dr. Shan Parker

Public Health and Health Sciences, University of Michigan-Flint, Flint, MI 48502, USA

Deadline for manuscript submissions:
closed (31 January 2024)

Message from the Guest Editors

This Special Issue will explore the problems faced by older adults with disabilities—both those aging *into* disabilities and those aging *with* disabilities. Priority will be given to articles that reflect the voices and concerns of traditionally marginalized populations, as well as those that identify environmental factors (including assistive technology, built environment, policies, and the attitudinal environment) that impact functioning and participation.

Keywords

- aging
- disability
- older adults
- independence
- interdependence
- environmental factors
- caregiving

Message from the Editor-in-Chief

Disability is a multidimensional construct and is the product of complex and situational interactions between an individual's attributes and their environments. This broadens the perspective of disability and allows for the examination of individual, social, and environmental influences on functioning, disability, and ability occurring in historical and cultural settings. Consequently, *Disabilities* is inclusive of all types of disability, across all ages and contexts. We particularly welcome articles from low- and middle- income countries and articles that are authored/co-authored by people with the lived experience of disabilities.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **ESCI (Web of Science)**, **Scopus**, **EBSCO**, and **other databases**.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 39.9 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the first half of 2024).
