Deadline for manuscript submissions:

**closed (31 December 2025)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue on "Research and Practice in Acute and Chronic Pancreatitis" invites submissions of research papers, reviews, and intriguing case reports. With a focus on both acute and chronic pancreatitis, we aim to advance understanding and enhance clinical practice in the management of pancreatic disorders.

We are looking for contributions including clinical research, diagnostic techniques, therapeutic interventions, and molecular mechanisms underlying pancreatitis. Reviews synthesizing current knowledge and addressing gaps in understanding pancreatitis are encouraged. Unique case reports offering insights into diagnosis, management, and outcomes of pancreatitis cases are also welcomed. Through collective efforts, this Special Issue aims to drive progress in understanding, managing, and treating pancreatitis, benefiting patients globally.

Dr. Veysel Tahan

## Message from the Editor-in-Chief

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Medicine, Research and Experimental)
