Message from the Guest Editor

Dear Colleagues,

Cancer patients are at higher risk of developing thromboembolic events. Low-molecular-weight heparin remains the standard anticoagulant therapy in a cancer setting. However, direct oral anticoagulants have recently changed the therapeutic approach to the treatment of venous thromboembolism in cancer patients.

This Special Issue will focus on the treatment of venous thromboembolism in patients affected by solid and hematologic malignancies.

Dr. Antonio Chistolini

Message from the Editor-in-Chief

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Medicine, Research and Experimental)
