Deadline for manuscript
submissions:

closed (31 July 2018)

Message from the Guest Editor

Dear Colleagues,

The development of non-invasive cardiovascular disease diagnostics necessitates ongoing knowledge and skills updates to match the current demands and progress in the field. Interestingly, through a review of current literature it seems that invasive diagnostic methods continue to be the gold standard with limited effort towards exploring noninvasive alternatives. Theoretically, a shift towards more simple and non-invasive solutions could yield equal or better results than invasive methods, in addition to needing less resources and training.

The purpose of this Special Issue is to bring together researchers and practitioners from multiple areas of expertise including biology, medicine, engineering and other physical sciences that are interested in studying and using non-invasive techniques for diagnosing diseases.

Message from the Editor-in-Chief

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2023).
