Deadline for manuscript  
submissions:

**closed (30 June 2018)**

### Message from the Guest Editor

Dear Colleagues,

There is a growing interest in the re-emergence of diseases that impact pediatric demographics. While major strides have been made in the field of childhood cancers, there are still more questions than answers. In addition, the resistance to childhood vaccinations fueled by misinformation has allowed infectious diseases to resurface in developed nations. Meanwhile, climate change and other destabilizing factors are shifting vector populations and driving the emergence of new disease. In this special issue of *Diseases*, we invite papers related to detection, prevention, diagnosis and treatment of human pediatric diseases. Papers related to molecular mechanisms, epidemiology, immunology, and public health initiatives associated with pediatric diseases are also encouraged.

Dr. Mark A. Brown

## Message from the Editorial Board

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPUS / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Medicine, Research and Experimental)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
