Tropical Aquatic Biodiversity

Guest Editors:

Dr. Lenize Batista Calvão

Postgraduate Program in Ecology (PPGECO), Institute of Biological Sciences (ICB), Federal University of Pará (UFPA), Augusto Correia, Number 1, Guamá, Belém 66075-110, Brazil

Dr. José Max Oliveira-Junior

Environmental Impact Studies Laboratory (LEIA), Institute of Water Sciences and Technology (ICTA), Federal University of Western Pará (UFOPA), Vera Paz Street, n/a (Tapajós Unit) Salé District, Santarém 68040-255, PA, Brazil

Deadline for manuscript submissions:

1 November 2025

Message from the Guest Editors

Tropical aquatic systems and their biodiversity are threatened by several anthropogenic activities. In this challenging scenario, to know tropical diversity, evaluating and monitoring different aquatic systems and identify bioindicator species becomes essential to make management/conservation measures and develop public policies more effective. This Special Issue will focus on tropical aquatic biodiversity and its distribution with implications for biomonitoring, management and conservation. Authors are encouraged to submit their manuscripts on the following topics:

- Tropical ecology and species diversity
- Effects of anthropic activities on aquatic systems and diversity/distribution of tropical aquatic species.
- Biomonitoring, management and conservation of tropical aquatic systems and their species.
- Studies of bioindicator species in tropical aquatic systems

Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
