Advances in Diversity and Conservation of Terrestrial Small Mammals—2nd Edition

Guest Editors:

Dr. Ana Maria Benedek

Faculty of Sciences, Lucian Blaga University of Sibiu, Bulevardul Victoriei 10, 550024 Sibiu, Romania

Dr. Linas Balčiauskas

Laboratory of Mammalian Ecology, Nature Research Centre, Akademijos 2, 08412 Vilnius, Lithuania

Deadline for manuscript submissions:

30 November 2024

Message from the Guest Editors

Rodents are key components of terrestrial ecosystems, where they have multiple functions, acting as seed and fungus dispersers, soil aerators and bioturbators, predators of insects and other invertebrates and, most importantly, as a food resource for most vertebrate predators. Resultantly, they exercise direct and indirect top-down and bottom-up control of the distribution, abundance and population dynamics of other animal taxa, as well as influencing vegetation structure.

The potential topics include, but are not limited to:

- diversity of rodents
- diversity of insectivores
- species richness
- functional diversity
- genetic diversity
- habitat degradation
- commensal habitats and adaptations

CITESCORE 3.4

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
