State Nature Reserve and
National Park “Smolny”, 30
Krasnaya str., Saransk, 430005
Republic of Mordovia, Russia

Deadline for manuscript
submissions:

closed (28 February 2022)

Message from the Guest Editor

Topics for this Special Issue can include a wide variety of aspects of the biology of individual species and the biodiversity of animals at all levels of the forest ecosystem, except for soil and litter—from undergrowth to canopy. Articles that use new or original methods for studying the vertical distribution of insects in forest ecosystems are especially needed. In addition, articles describing the associative relationships between insects and other groups of animals in the forest canopy are welcome.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
