Advances in Functional Ecology: From Plant Functional Traits and Functional Diversity to Ecosystem Processes

Guest Editors:

Prof. Dr. Giovanni Bacaro

Department of Life Sciences,
University of Trieste, via L.
Giorgieri 10, 34127 Trieste, Italy

Dr. Enrico Tordoni

Department of Life Sciences,
University of Trieste, via L.
Giorgieri 10, 34127 Trieste, Italy

Dr. Francesco Petruzzellis

Department of Life Sciences,
University of Trieste, via L.
Giorgieri 10, 34127 Trieste, Italy

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

In this Special Issue dedicated to “Plant Functional Traits and Functional Diversity”, we are calling for innovative insights, original research papers, perspectives, opinions, modelling approaches, and methods on different aspects of PFTs and FD, including:

- Up-scaling trait variation across levels of biological organization;
- PFTs sampling optimization;
- PFTs variation in response to environmental factors with a particular focus on ecological and ecophysiological aspects;
- methodological aspects based on the quantification of FD;
- the use of FD to reveal mechanisms driving community assembly and ecosystem functions;
- the relationships between FD and other aspects of biodiversity, including remote sensing-derived metrics.

Authors having ideas for potential review articles can contact the Editors to discuss the suitability of the topic. Articles proposing and discussing brand-new open-source solutions for the analysis of PFT and FD are very welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and
Molecular Biotechnology,
Heidelberg University, Im
Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
