Diversity, Ecology and Conservation of Zooplankton

Guest Editors:

Prof. Dr. Raquel Jiménez-Melero

Department of Animal Biology,
Plant Biology and Ecology,
University of Jaén, 23071 Jaén,
Spain

Dr. Juan Diego Gilbert

Department of Animal Biology,
Plant Biology and Ecology,
University of Jaén, Campus de las
Lagunillas, s/n, 23071 Jaén, Spain

Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editors

Dear Colleagues,

We are pleased to announce a forthcoming Special Issue of *Diversity* focused on zooplankton, a key group in the aquatic ecosystems since they are a link between primary producers and secondary consumers. Everything about these organisms is fascinating, from their beauty to their complex life cycles and ecology.

Zooplankton occur around the world, from the Arctic to the tropics, inhabiting all kinds of environments, such as small vernal pools and of course, the vast ocean. They are everywhere, in groundwater, hot springs, caves; they can even travel throughout time, thanks to their resting structures capable of remaining dormant for decades and centuries.

Diversity's team and we kindly invite you to submit a manuscript focused on any aspect of diversity, ecology and conservation of zooplankton, from specific case studies to reviews. All levels of organization are welcome, that is, species autoecology, population dynamics and community studies. Likewise, manuscripts dealing with both marine and freshwater species are welcome. If you are interested in this opportunity or have any questions, please do not hesitate to contact us.

Special Issue

diversity

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and
Molecular Biotechnology,
Heidelberg University, Im
Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
