Deadline for manuscript  
submissions:

**30 September 2025**

### Message from the Guest Editor

Armadillos represent an often overlooked but diverse and fascinating group of wildlife. Where they occur, armadillos have outsized roles and importance in a number of different ways. Armadillos alter the environment around them by excavating extensive burrow systems that are used by numerous other wildlife species; they are harvested in large numbers for their bushmeat; they are hosts for diseases that can impact humans; and some species of armadillo are rapidly expanding their geographic range into new areas, while others are in need of conservation. We are seeking research or review articles that further explore these aspects of armadillo conservation, behavior, and ecology to allow us to better quantify the ecological and societal role of this fascinating group of species. This Special Issue provides an opportunity to better understand the important ecological services provided by armadillos, the behavior and ecology of different armadillo species, strategies for the conservation of armadillos, as well as the distribution and expansion of current and future potential geographic distributions.

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
