Revealing the Puzzle of the Past through Ancient Biomolecules: From Wild to Tame Faunal Diversity

Guest Editors:

Dr. Ioana Nicoleta Meleg

Dr. Beatrice Simona Kelemen

Department of Molecular Biology and Biotechnology, Faculty of Biology and Geology, 5-7 Clinicilor Street, 400006 Cluj-Napoca, Romania

Deadline for manuscript submissions:

closed (1 May 2023)

Message from the Guest Editors

In this Special Issue of *Diversity* we aim to bring the story of extinct and extant faunal diversity to life, from wild to domesticated populations, retrieved from subsurface and surface archaeological and palaeontological deposits, by analysing ancient biomolecules (DNA, proteins, lipids, and stable isotopes). The manuscripts should provide insight and present new challenges and perspectives on the spatio-temporal ancient faunal diversity within palaeoecological contexts.

We hope this Special Issue will approach a broad variety of topics and species, from the extinct Pleistocene megafauna to ancient and medieval wild and domestic stocks, and offer a better understanding of drivers of past faunal diversity on Earth.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
