### Message from the Guest Editors

Dear Colleagues,

The *Diversity* Journal is about to launch a Special Issue dedicated to Coral Reef Ecology and Biodiversity.

Maintaining community, organismal, and genetic diversity is vital to ecosystem services and functioning; however, natural and anthropogenic impacts can alter this balance. The focus of this Special Issue of the interdisciplinary open access journal *Diversity* is one of the most diverse ecosystems on earth: coral reefs. We welcome topics that cover anthropogenic impacts on coral reef ecology and biodiversity, climate change ecology, applied research and management, as well as socioeconomic linkages between humans and coral reefs.

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
