Message from the Guest Editor

Economies is inviting contributions to a Special Issue on epidemics and economics. Specifically, theoretical and empirical contributions sought for the Special Issue comprise rigorous research that addresses, but is not limited to, the following topics:

- The macroeconomic impact of the disruption caused by health outbreaks and epidemics on trade imbalances, exchange rate movements, and market interest rates.
- The microeconomic impact of the disruption caused by health outbreaks and epidemics on vulnerable populations.
- The response of local, national, and multinational levels to health outbreaks and epidemics.
- The management of the risk of health outbreaks and epidemics and the mitigation of their impacts.

Contributions to the Special Issue are encouraged to be made by 1 December 2020. Papers will be sent to referees and you will receive an editorial decision with detailed comments by 15 February 2021.
