Message from the Guest Editors

Dear Colleagues,

Education in general, and Higher Education in particular, is a field that is constantly evolving, and artificial intelligence (AI) has emerged as a transformative force in the field. With rapid and continuous technological advances, AI has demonstrated significant potential to improve educational processes, personalise learning and empower students and teachers.

This call for papers seeks to bring together the most innovative and relevant research on the intersection between artificial intelligence and Higher Education. We hope that this initiative will foster the exchange of ideas, promote the advancement of the field and contribute to the improvement of Higher Education systems globally.

We look forward to receiving your innovative and insightful research that sheds light on the potential of artificial intelligence in Higher Education. Together, we can make the most of this technology and shape a more inclusive, dynamic and student-centred educational future.
