Message from the Guest Editors

Dear Colleagues,

Facing the change and impact of globalization, how to apply design thinking to improve people's life, from Hi-tech to Hi-touch, is becoming increasingly vital during this disquieting era. This Special Issue is focused on discussing the development, application, potential and boundary of design education as well as design practice from a cross-cultural perspective. Thus, theoretical research via scrupulous literature review in various scope of design, empirical studies of significant design cases are welcome.
