### Message from the Guest Editors

This Special Issue aims to explore the possibilities, impacts and challenges associated with implementing GenAI in education in order to deepen the understanding of how GenAI might be leveraged to create a more engaging, effective and equitable teaching and learning environment.

This Special Issue is organized around the following themes:

1. The development of GenAI applications for educational purposes: this theme includes studies focusing on the development of applications integrating GenAI to empower teaching and learning, such as intelligent tutoring systems, automatic scoring systems, etc.
2. Best practices of integrating GenAI in teaching and learning: this theme focuses on the student and teacher experience and performance when incorporating GenAI in real teaching and learning practices.
3. The ethical and social issues of GenAI in educational settings: this theme aims to address ethical and social problems when leveraging GenAI in education.
