Message from the Guest Editor

Dear Colleagues,

The role of natural science in early years education is a field of research that has attracted an increasing amount of interest over the past decade. A driving force for this development is the recognition of the importance of early years science education for society at large through its impact on future academic achievements and equality, as education strives to provide all pupils with the experiences necessary to attain educational goals. One of the most pressing issues for education today is to increase children's environmental awareness to provide coming generations with the knowledge to form a more sustainable future. Contemporary research has provided new insights into the learning process itself with the inclusion of related fields such as information and communication technology (ICT), linguistics and concept formation and much more. The current breadth of development motivates summarising the current state of this multidisciplinary field and the presentation of informed insights concerning current and future trends.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PscyInfo, and other databases.

Journal Rank: JCR - Q1 (Education and Educational Research) / CiteScore - Q1 (Education)
