### Message from the Guest Editors

This Special Issue will address various perspectives, challenges, and opportunities for supporting multilingual students in K-12 schools. We encourage submissions that address various models of bilingual and multilingual education serving multilingual students. Manuscripts focused on various language approaches, including translanguaging, are also encouraged. We are also seeking manuscripts that examine issues related to the preparation of teachers, paraprofessionals, and other specialists who support this population of students. Manuscripts that examine how to support teachers of multilingual students are also encouraged. Research focused on current issues and trends, i.e., the use of AI, related to supporting multilingual students is also welcome for submission.
