Message from the Guest Editors

The main aim of this Special Issue is to publish original research, case studies, and literature reviews that can offer different perspectives and represent models for future extended implementations. The focus is on:

- Adapting educational curricula in accordance with the market and with students' attentiveness to increase their enthusiasm and interest in study;
- Stimulating interaction between class members (students, teachers) through simulations, gaming, and MOOCs as a response to cases when physical presence is not possible;
- Boosting innovation and driving changes: quality education and training systems to be able to adapt quickly to new realities, promote innovation, boost resilience through a reinforced social cohesion, anticipate future trends, and drive changes.
- - MOOCs
 - VR
 - AR
 - gaming
 - simulation
 - distance education
