

## Special Issue

# Research Needs in Mathematical Giftedness and Creativity

### Message from the Guest Editors

Advancements in mathematical creativity research are crucial for several reasons: they deepen our understanding of how new mathematical ideas are generated, enhance mathematics education by fostering creative thinking, identify factors that support or inhibit creativity, and ultimately contribute to the progression of mathematics through innovative problem-solving and the development of new theories. We look forward to receiving your submissions and to the valuable insights they will bring to this important field.

## About the Journal

### Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PsycInfo, and other databases.

#### Journal Rank:

JCR - Q1 (Education and Educational Research) / CiteScore - Q1 (Education)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.8 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2024).
