

Unlocking Data's Potential: Artificial Intelligence and Visual Analytics in the Modern Age

Guest Editors:

Prof. Dr. Kawa Nazemi

Head of Human-Computer Interaction and Visual Analytics, Faculty of Media, Darmstadt University of Applied Sciences, 64807 Darmstadt, Germany

Prof. Dr. Nuno Datia

Computer Science Department, ISEL-Lisbon School of Engineering, Rua Conselheiro Emídio Navarro, 1 1959-007 Lisboa, Portugal

Dr. Rita Francese

Department of Informatics, University of Salerno, 84084 Fisciano, SA, Italy

Deadline for manuscript submissions:

15 January 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue endeavors to delve deep into the interplay between AI and visual analytics, seeking contributions highlighting novel methodologies, computational strategies, systematic reviews, and system architectures of real-world applications. Our goal is to foster an interdisciplinary exchange of ideas, extending to areas including analytical decision-making, corporate strategy evolution, AI-driven collaborative frameworks, healthcare analytics, sustainability metrics, and innovative techniques for behavior and trend detection.

Topics of interest include, but are not limited to, the following:

- Integrative visual analytics and artificial intelligence systems and approaches;
- AI and visual analytics to support decision-making;
- Techniques and methods in explainable AI;
- Visual analytic solutions for handling big data challenges;
- AI and visual analytics in strategic corporate planning, healthcare and social well-being;
- Facilitation of collaborative work through AI interventions;
- Insights into collaborative intelligence mechanisms.

You are welcome to contribute!!!

an Open Access Journal by MDPI

Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
