

## Digital Control to Power Electronics, 2nd Edition

Guest Editors:

**Dr. Manuel Moreno-Eguilaz**

Department of Electronic Engineering, Technical University of Catalonia, UPC  
BarcelonaTech, 08028 Barcelona, Spain

**Dr. Álvaro Gómez-Pau**

Department of Electronic Engineering, Technical University of Catalonia, UPC  
BarcelonaTech, 08028 Barcelona, Spain

Deadline for manuscript submissions:

**15 August 2024**

### Message from the Guest Editors

In the past, most power converters have been controlled using analog electronics. However, digital control is present in many power converters nowadays. State-of-the-art fast and powerful digital control systems provide new functionalities and performances for power converters. Moreover, all kinds of communications and artificial intelligence may be included in modern power electronics. Complex control algorithms, identification, and online adaptation may be applied in power converters thanks to modern digital control systems.

The main aim of this Special Issue is to seek high-quality submissions that highlight the application of digital control to power electronics, from theory to application. The topics of interest include, but are not limited to, the following:

- Fundamentals of digital control systems in power electronics.
- Microcontrollers, FPGAs, and SoCs applied to power electronics.
- Application of digital control systems to power electronics.
- Implementation of control algorithms in digital systems for power electronics.
- Identification and control of power electronics using digital systems.

an Open Access Journal by MDPI

Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
