Deadline for manuscript  
submissions:

**closed (15 July 2024)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue intends to foster the latest research and demonstrate emerging topics in power conversion architectures for different kinds of power and energy systems.

Prospective authors are invited to submit original contributions or survey papers, in which experimental results based on laboratory-scale hardware are desired to support the proposed ideas, for review and publication in this Special Issue. Topics of interest include, but are not limited to:

- New topologies for power electronic converters, including AC/DC, DC/DC, DC/AC, AC/AC, etc.
- New modelling and control methods for power conversion systems.
- Advanced modelling and control of power and renewable energy systems.
- Model predictive control for power converters.
- Auxiliary controls of power conversion systems for grid integration.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
