Deadline for manuscript  
submissions:

**15 February 2025**

### Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we aim to explore the innovative ways that VR is being applied to improve various facets of daily life. Suitable topics include, but are not limited to, the following:

- VR applications in culture industries, including museums, cinema, and videogames.
- VR applications in healthcare, including therapy, rehabilitation, and medical training.
- Immersive educational environments and VR-based learning tools.
- Enhancing social interaction and remote collaboration through VR and virtual twins.
- VR in professional training and skill development.
- The impact of VR on mental health and well-being.
- Technological advancements and innovations in VR hardware and software.
- Case studies and real-world applications of VR improving human experiences.
- Challenges and future directions in the application of VR technology.

Please feel free to contact us if you have any questions or need further information regarding your submission.

an Open Access Journal by MDPI

Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
