

## Recent Advances in Educational Robotics, Volume II

Guest Editors:

**Prof. Dr. Savvas A. Chatzichristofis**

Department of Computer Science, Neapolis University Pafos, Pafos 8042, Cyprus

**Dr. Angelos Amanatiadis**

Department of Production and Management Engineering, Democritus University of Thrace, 67132 Xanthi, Greece

**Dr. Lefteris Doitsidis**

School of Production Engineering & Management, Technical University of Crete, 73100 Chania, Greece

Deadline for manuscript submissions:

**closed (15 October 2023)**

### Message from the Guest Editors

Educational robotics is a field that has seen significant advancements in recent years. The integration of AI and machine learning has greatly improved the autonomous behavior of robots. This has enabled robots to better respond to their environment, learn from their experiences, and adapt to new situations.

This Special Issue aims to collect the latest information from scientists in the following areas of scientific activity:

- Improving autonomous behavior of educational robots by integrating AI and machine learning techniques;
- Advances in cloud-based solutions for remote control and data analysis in the educational robotics field;
- Developing more accessible, user-friendly educational robotics programming languages and tools;
- Advances in educational robotics hardware components that are low-cost and miniaturised;
- Educational robotics integration with augmented reality and virtual reality;
- Educational robotics classroom case studies and best practices;
- The impact of education robots on student engagement, learner outcomes, and career progression.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
