

Smart City Technologies, Urban Infrastructure and Urban Informatics

Guest Editors:

Prof. Dr. Khalid Saeed

1. Head of Department of Digital Media and Computer Graphics, Bialystok University of Technology, 15 351 Bialystok, Poland

2. Department of Computer Science and Electronics, Universidad de La Costa, Barranquilla 080002, Colombia

Prof. Dr. Emiro De-la-Hoz-Franco

Department of Computer Science and Electronics, Universidad de La Costa, Barranquilla 080002, Colombia

Deadline for manuscript submissions:

closed (15 February 2024)

Message from the Guest Editors

Dear Colleagues,

The analysis of urban infrastructure has evolved from the original considerations related to housing and segregation of the city to a systemic vision of new modern facilities and services that take into account urban metabolism and vulnerabilities, e-cities, communication networks, and access with quality and efficiency to services that ensure the quality of urban life with the least environmental deterioration, including its dematerialization and the development of Industry 4.0 in the urban environment.

Topics of interest include but are not limited to:

- Smart cities.
- Dematerialization of services and Industry 4.0.
- Urban networks and systems.
- Urban technologies.
- Urban informatics.

Keywords

- smart cities
- Industry 4.0
- urban technologies
- urban informatics

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
