

AI-Based Solutions for Cybersecurity

Guest Editors:

Dr. Eunjung Choi

Department of Information Security, Seoul Women's University, Seoul 01797, Republic of Korea

Dr. Jiyeon Kim

Department of Computer Engineering, Daegu University, Gyeongsan 38453, Republic of Korea

Deadline for manuscript submissions:

15 October 2024

Message from the Guest Editors

Dear Colleagues,

AI is having a significant impact on cybersecurity, and there are also concerns related to the security of AI, which include trust in AI, the ethical application of AI, and cybersecurity.

AI is able to play a positive role in cybersecurity, aiding in threat anticipation and case summarization, while cybersecurity will be essential to ensure AI's trustworthiness.

AI solution is becoming increasingly important in the field of cybersecurity, and it is expected to continue to play a significant role in the years to come.

Topics of interest for this Special Issue include, but are not limited to, the following:

- AI-based threat detection;
- Behavioral analytics;
- Cybersecurity automation;
- AI-powered authentication;
- Adversarial machine learning;
- AI in IoT security;
- Cyber threat intelligence;
- AI and cloud security;
- AI-based security analytics;
- Ethical considerations.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
