Deadline for manuscript
submissions:

15 October 2024

Message from the Guest Editors

This Special Issue aims to explore the latest advancements and applications of fuzzy-logic in knowledge management and user modeling. It seeks to advance the understanding and application of fuzzy logic in these domains, shedding light on its potential to address challenges such as information overload, data ambiguity, and user behavior understanding and prediction. Particularly, this Special issue aims to inspire further research in innovative methodologies for tackling the complexities inherent in managing knowledge resources, and for handling and capturing the nuanced and subjective nature of user preferences, interests, and interactions. It delves into various applications of fuzzy logic in knowledge management, showcasing how it enables more nuanced reasoning and decision-making processes in the face of incomplete or ambiguous information, and into the diverse applications of fuzzy logic in user modeling, highlighting its role in personalization, recommendation systems, and adaptive interfaces.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
