Message from the Guest Editors

This Special Issue aims to seek high-quality researches focusing on computer vision and image processing, and to bring together researchers from both academia and industry to provide their innovative insights into this Special Issue, titled Recent Advances and Future Perspectives of Computer Vision and Image Processing. We look forward to the latest research results that suggest theoretical and practical solutions for various application related to computer vision.

The topics of interest include, but are not limited to, the following:

- computer vision;
- image/video processing;
- image/video content analysis;
- image/video modeling;
- multimedia security and forensics;
- multimedia communications and networking;
- multimedia systems and emerging applications.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
