Environment, Edinburgh Napier  
University, Edinburgh EH10 5DT,  
UK

Deadline for manuscript  
submissions:

**15 April 2025**

### Message from the Guest Editor

The fields of cyber-security and machine learning (ML) have seen significant advancements over the past few years. These advancements are driven by the increasing complexity of cyber threats and the growing availability of data, computational power, and sophisticated algorithms. The integration of ML into cyber-security has become crucial in enhancing the capability to predict, detect, and respond to cyber threats. Moreover, the rapid evolution of cyber threats necessitates advanced, adaptive solutions, and ML provides the tools to predict, detect, and respond to these threats effectively. This Special Issue is organized to present the key advances in the application of ML within the cyber-security domain.

an Open Access Journal by MDPI

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
