

Antenna Design and Integration in Wireless Communications

Guest Editor:

Dr. Emilio Arneri

Department of Computer,
Modeling, Electronics, and
Systems Engineering, University
of Calabria, 87036 Arcavacata,
Italy

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

Wireless communication is one of the fastest-growing fields of communication industry. This constant evolution fosters the antenna community to design new radiating systems capable of satisfying the market demands. Significant progress has been made in the development of new antenna structures and techniques for various exciting new applications. In particular, the rapid growth of mobile systems toward the 5G generation has required to focus on multiband and wideband antennas suitable to reduce the system complexity and to cover mobile services minimizing the overall device dimensions and costs.

an Open Access Journal by MDPI

Editor-in-Chief

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
