Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editors

For this Special Issue, we invite you to submit high-quality research on emerging solutions and/or applications based on AI techniques, such as machine learning, that address the recent challenges caused by COVID-19. Topics of interest include but are not limited to the following:

- Application of artificial intelligence for COVID-19;
- Application of machine learning algorithms for COVID-19;
- Condition monitoring, prognosis, and diagnosis of COVID-19 patients using AI techniques;
- Internet of Things (IoT) devices with application in intelligent systems for COVID-19;
- AI applications in image processing to detect abnormalities (e.g., pulmonary) using X-rays to provide diagnoses of potential COVID-19 cases;
- AI-enabled robots to minimize human-to-human contact;
- AI applications for contact tracing;
- Management solutions for large volumes of data (big data); and
- Pandemic data management and visualization systems.

an Open Access Journal by MDPI

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
