Artificial Intelligence Applied in Smart Electric Vehicles: Towards Eco-Driving for Improved Energy Economy

Guest Editors:

Dr. Yuanjian Zhang
School of Mechanical and Aerospace Engineering, Queen's University Belfast, Belfast BT7 1NN, UK

Prof. Dr. Guodong Yin
School of Mechanical Engineering, Southeast University, Nanjing 211189, China

Dr. Nan Xu
State Key Laboratory of Automotive Simulation and Control, Jilin University, Changchun 130022, China

Deadline for manuscript submissions:
closed (31 March 2022)

Message from the Guest Editors

To inspire novel AI-based applications in smart EVs towards eco-driving, this Special Issue will seek fantastic solutions among high-quality submissions.

The suggested topics include, but are not limited to:

- AI-based control strategies for pure EVs, HEVs, PHEVs, FCVs;
- AI-based multi-scale energy management in EVs, e.g. energy management problems in energy storage systems (battery state estimation, battery degradation prediction), powertrains, and vehicle dynamics;
- AI-based eco-driving assistant systems for pure EVs, HEVs, PHEVs, FCVs;
- AI-based control strategies in automatic driving with target to improve energy economy;
- AI-based vehicle-environment co-operation schemes for eco-driving in pure EVs, HEVs, PHEVs, FCVs;
- AI-based human-vehicle co-operation schemes for eco-driving in pure EVs, HEVs, PHEVs, FCVs;
- AI-based EV fleet control methods for eco-driving.

Welcome to contribute to our Special Issue.

CITESCORE 5.3

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.
Journal Rank: JCR - Q2 (*Physics, Applied*) / CiteScore - Q2 (*Control and Systems Engineering*)
